Build for the next generation,
build **strong..**
build **Behlen.**

Building Systems for Rural America

Behlen is Building Rural America for the Next Generation

Experience

The Behlen name is renowned in Rural America for providing quality steel building systems, made by craftsmen, with a heritage that dates back more than 75 years. We are "The GOOD IRON People" and it shows in every building – every time. Behlen buildings have met the needs of farmers, ranchers, grain storage facilities, and ag businesses by standing up to the elements and serving as an essential part of their operations from one generation to the next.

Value

A Behlen building maintains its value, integrity and strength. **All steel construction** provides greater stability than a wood frame structure. Behlen buildings are built to last.

Flexibility

A Behlen building can be configured into a nearly limitless combination of widths, lengths, and heights. Your building is an important investment and we can provide the **exact** building you're looking for.

Quality

Behlen has maintained ISO 9001 Certification since 1999 and is the first metal building manufacturer in the United States to achieve International Accreditation Service (IAS) AC472 Accreditation. IAS AC472 Accreditation provides assurance that a metal building manufacturer and its staff have a world class quality system in place and have been thoroughly scrutinized by independent non-biased and objective third party auditors.

What our customers are saying...

As this is our first "Behlen" – I am very happy with the overall quality of steel/paint, and especially the perfection of having all parts delivered, and fitting together exactly per the construction drawings!

Mark D. Caskey
STEEL NATION, Inc.
Canonsburg, PA

GENERAL CONTRACTOR

Behlen had some distinct advantages – a great local contractor, a hands on rep that wanted to make sure things are right, and Behlen is still a company that when you call – you can talk to a human being. Overall, we were very satisfied with our building, and would choose Behlen again.

Gary Dible
21st Century Equipment
Sidney, Nebraska

BUSINESS OWNER

Ease in the field makes a big difference. I've been a full time steel erector for 16 years, putting up several metal building brands, and I can say with confidence that of all the structures I've put together – Behlen is by far the easiest. Behlen buildings require the least amount of work in the field and I don't have to use the torch or welder.

Mike Emanuel
North Central Builders
Hartington, Nebraska

STEEL ERECTOR

We're starting our 51st year with Behlen. Their service is equal to their workmanship which is first rate. They take care of their customers like they take care of their business – the way we all would like to be taken care of. Good People, Good Iron.

Dave Clausen
Clausen & Sons, Inc.
Havre, Montana

GENERAL CONTRACTOR

Right from the start, the staff at Behlen, both in the field and at the plant, took time to ask us questions and to review with us what it was that we wanted as the end result. We are very pleased with our Behlen buildings and we will choose Behlen with future building opportunities.

Marlin McCormick

Design Build

Authorized Behlen Builders must be experienced and held in high regard by the construction industry to meet our qualifications. They are the best of the best. Your authorized Behlen builder will partner with you to develop a sound, well-defined budget and get the greatest return for your investment. You can handle the day-to-day needs of your operation rather than deal with construction details.

Our builders provide the EXACT building you want!

Future Growth

Behlen buildings can be easily designed for fast, economical additions and other enhancements.

Energy Savings

Behlen buildings can easily incorporate energy efficient insulation systems for long-term heating and cooling savings. Plus, our durable components and quality construction minimize maintenance requirements.

Steel that fits up right!

Behlen clips are pre-welded resulting in a better fit and reduced erection cost and time

Curvet™ Buildings

The Behlen Curvet™ is perfect for farmers, ranchers, or anyone looking for an economical approach to store equipment in a building with superior strength and the ability to stand strong against the elements. The building's rugged S-Span™ design is clean, open, and free of interior columns. The Behlen Curvet™ has proven itself as a vital building across the country.

Features

- ✓ Made from durable 18 or 20 gauge steel, providing outstanding strength
- ✓ Grain storage Curvets™ allow grain to be filled to 10' high against sidewalls and 9' high against endwalls, without tie rods or braces
- ✓ Loading hatches can be located along the top of the building to make filling a simple operation
- ✓ Can be easily expanded for additional storage
- ✓ Standard bottom rolling slide doors open with ease and operate on large diameter wheels
- ✓ All slide doors have 3" roll formed panels

Available Door Sizes

- ✓ 16'-10" wide x 14' tall
- ✓ 23'-8" wide x 14' tall
- ✓ Larger sizes available*

*16' tall doors are available on 60' and 68' wide Curvets™ only

*Larger 44' wide x 14' tall and 30'-6" wide x 16' tall slide doors are available for the 68' Curvet™ only

Mastic between all panel joints and foam sealer at the base provide a protective barrier against moisture and wind.

All panels are fastened together with large 3/8" dia. bolts that will not work loose with heat, cold or vibration.

Panel connections, footings, and sealers are designed for tight fit and long life. All panels are fastened together with plated 3/8" diameter bolts.

DIMENSIONS

Width	Height	Height 3' from Sidewall Base
51'	17'-5"	4'-11"
60'	20'-0"	4'-11"
68'	23'-0"	5'-2"

Behlen Country
